ALWAYS LIVAL.

New York Press - The Free trade, free seller; Demecracy is the conliest sorrant the American people ever imported into their National household. One billion dollars has been expended in training a greenhorn who still sits hopelessly inscite. The only hope that the country has of getting its work done lies in the faithfulness of that unjustly dismissed servant, the Republican party, which is coming loyally to the rescue.

ENGLAND'S PREE TRADE SNORBERY.

ENGLAND'S PREE TRADE SCORDERY.

ANG FORK Adertisor, "There are many thousands of poor, starving wretches in Londou to-day to whom a loaf of bread would be a positive luxury, and a decent bed to sleep in something like the heaven the Salvation Army precedues to them. We are told that a list of the wedding present given to Prince George and his bride would fill a page in an ordinary mewspaper. The gift from the Princess of Wales is valued at \$\frac{1}{2}\$, 390,000—paid for with the mouve wrams from the bax. of Wales is valued at \$1,39,000—paid for with the mousey wrung from the tax-pacers. What kind of people are there who, fastened upon the pablic Treasury, spend such vast sums for gewgaws in-stead of using it to ameliorate the con-dition of those who are made beggars and tramps by a Free trade system which takes their work away from them that the rich may be enabled to buy their imported luxuries at a low price.

WHERE THE CURRENCY HAS GONE.

Philadelphis Press.—The savings banks will probably be found to have done quite as much to make currency scarce as, any other agency. A year ago the savings banks in this country had \$1,758,338,918 of deposits, but they kept ieses than 3 per cent. of this in cash, or only \$43,298,271, and shout 5 per cent., or not \$81,578,238, was deposited in banks. In all about 7 per cent. of their deposits was within call. New York banks, alu all about 7 per cent. of their deposits was within call. New York banks, which have about one third of the savings deposits in the country, in 1890 had only 1 per cent. of their deposits, or \$6,588,189, in the shape of cash. All savings banks have, we doubt not, prudently added to their cash balances in the past stayt days, and as their aggregate deposits double the National debt, and are as large as the \$1,506,151,901 of currency in circulation June 1st. It would not take much call from them to account for all the locking up of currency.

Hence, not to disappoint any one, we will make a TWO DAYS SPECIAL SALE ON NEXT FRIDAY AND SATURDAY, JULY 14th and 15th. On these two days we will do precisely as we did last Saturday, viz: Sell you
